COURSE INFORMATION

Eat... Walk... Talk... is the mantra expressed by parents when they are setting goals for their young infants with developmental challenges. Although we recognize there are other skills of equal importance to be acquired during the first year of development, these three signify the most "important" milestones in the heart and mind of a parent. A detailed and thorough understanding of normal development is critical for appropriate therapeutic intervention and goal creation.

Course Schedule

7:45-8:30am:	Registration / Coffee
8:30-9:00:	Introduction-overview normal development dynamic systems
9:00-10:15:	0-3 mos.
10:15-10:30:	Break
10:30-11:45:	3-6 mos.
11:45-1:00:	Lunch
1:00-2:00:	6-9 mos.
2:00-3:00:	9-12 mos.
3:00-3:15:	Break
3:15-4:45:	Brainstorm therapeutic Implications and problem solving

*This course is offered for a total of 0.65 ASHA CEUS
(Intermediate level, Professional area).*

The NY State Speech-Language-Hearing Association is approved by the Continuing Education Board of the American Speech-Language-Hearing Association (ASHA) to provide continuing education activities in speech-language pathology and audiology. See course information for number of ASHA CEUs, instructional level and content area. ASHA CE Provider approval does not imply endorsement of course content, specific products or clinical procedures.

MEET THE SPEAKERS

AMY GOOD

Amy is a Speech and Language Pathologist who holds a Masters degree in speech therapy from Baylor University and a CAS from Syracuse University in Teaching and Leadership. She has specialized in the treatment of children ages birth to five with :

- Oral/motor and feeding disorders
- Augmentative communication needs
- Autistic-Spectrum Disorders
- Children with Cerebral Palsy, Down Syndrome, and other developmental disorders

She has worked at the North Syracuse Early Intervention program for 28 years, and in that time, she has offered presentations to staff and the community on a number of topics. She was an adjunct professor at Syracuse University , teaching the Developmental Therapy Course to master level teachers.

SOOKIE KAYNE

Sookie has been a pediatric Physical Therapist for 38 years, working with young children ages 0-5 with a variety of diagnosis. Sookie is NDT certified in pediatrics and babies and is trained to treat children using cranio-sacral techniques. She seeks out seminars specific to the children she is currently treating and has attended a wide variety of seminars on the following topics:

- Developmental Coordination Disorder
- Autism and the DIR approach
- Torticollis
- Developmental Biomechanics

Sookie has conducted a variety of workshops in the Syracuse area. She was an adjunct professor at Syracuse University for 8 years teaching the Developmental Therapy Course.

Amy and Sookie have worked closely together for the past 21 years during which time they have treated and taught together and share a passion for learning and teaching.

LEARNING OUTCOMES

At completion, attendees will be able to:

- Apply normal development from age 0-12 months in motor, cognitive and speech/language milestones as a basis of future skill development.
- Identify the spiraling quality of normal skill acquisition, with its variations and differences, versus the more traditional building block model.
- Develop skills and techniques that offer a template for intervention.
- Facilitate a level of understanding and competency in developing the most foundational skill sets in the first 12 months of life.

Workshop Policies

It is Hear 2 Learn's policy that all events for continuing education be unbiased with evidence based information. Disclosure of any financial relationships of the speakers with commercial entities that produce or market products related to the content of these events will be announced at the beginning of the course.

Cancellation Policy: Hear 2 Learn will refund your registration fee, less a \$25 administrative fee, provided you notify us by September 1st. No refunds will be made after that date. Registration may be transferred to another person. In the event of cancellation or rescheduling of this course due to unforeseen circumstances , registrations will be refunded in full.
