

Learn WHAT others say...

“(Provider Name) is an excellent provider. She genuinely cares not only for my son’s learning and progress but also with my concerns.”

“Thank you for your efficiency, kindness and feedback. Your reputation precedes you as being a phenomenal agency.”

“As a parent of a child who has issues, it is comforting to meet someone who loves her job and enjoys what she is doing”

Learn HOW to choose us...

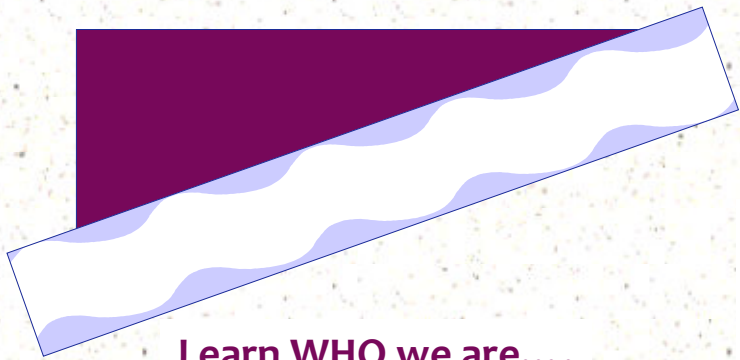

Hear 2 Learn provides therapies and services through a variety of sources. We have the pleasure and privilege of providing early intervention and preschool evaluations with services in several counties in Central New York. We also provide select therapies and services through private pay. We are excited to offer audiological services, hearing devices, and other select therapies, through third party health insurance in the Spring 2011. Referrals are welcome from physicians and other health care personnel.

Independent Lives

Learn WHO we are....

Hear 2 Learn is a New York State approved agency for Early Intervention and Preschool Services. Our mission is simple: enhance the lives of children with diverse special needs by providing pediatric therapies and services for full and independent lives. We do this through individualized and multi-disciplinary services, family-centered therapies and community outreach. We offer the highest quality of care by investing in our professional staff with mentoring, continuing education, state of the art technology, and support.

For our children with hearing loss, we provide an array of services from providers with decades of experience working with this very unique population.

Learn ABOUT Audiology...

Pediatric Audiology

Hear 2 Learn offers the area's first comprehensive audiology clinic for children, with child friendly approaches and state of the art technology conducted by Doctors of Audiology who specialize in pediatrics. With evidence based assessment and dispensing tools, you are assured quality and accurate hearing health care for your child.

Hearing Aids and Assistive Devices

For children requiring amplification, we offer hearing and assistive technologies. Our pediatric protocols adhere to best practice among the American Academy of Audiology and the Joint Committee on Infant Hearing.
